webinar was presented by **Mr. Randy Hice,** Cedrus' Chief Technical Officer and a member of its Life Sciences Advisory Board.

**Mr. Randy Hice** is a world-recognized leading authority in laboratory informatics with industry experience of more than 30 years. Prior to joining Cedrus, he served as the Manager of Global Strategy for Abbott Informatics with a focus on complex business analysis, harmonization, inter-operational platforms, etc. Randy is one of the most published author in the world on laboratory automation and complex workflow analysis and was a monthly columnist for *Scientific Computing Magazine* for 20 years. He has also contributed to *American Pharmaceutical Review* and *American Laboratory*. With his in-depth understanding of the industry, Randy has the credentials to share with investors his insights on key issues concerning investment risks, returns and opportunities among others.

<u>Cedrus' Chairman, Mr. Rani Jarkas</u> said: "The webinar drew great interest and enticed active involvement from executive-level participants, including Chairmen, CEOs and CTOs of life sciences companies along with prominent institutional investors from around the globe. Cedrus will continue to explore further means that facilitate the sharing of its insights on the life sciences industry with a broad spectrum of investors."
